Description of Property and Eligibility Determination (Use continuation sheet if necessary and attach map and photo)

The Sharpening House, a former single family dwelling, which appears to be a Colonial Revival style dwelling from the early twentieth century. However, the building was converted into a commercial structure, and now serves as office space for the Marble Hill Partnership. Although the building retains much of its original fabric, as a result of the commercial development surrounding it, the Sharpening House is not eligible for inclusion in the National Register of Historic Places, under Criterion C, either individually or as an historic district. No information was developed regarding Criterion A, B or D.
